With the help of its built-in battery, you can carry this jammer with you and create a signal free zone around you anywhere. HDT 101t6 has 6 external omni-directional antennas and it is able to jam signals from 800Mhz to 2600Mhz, plus GPS signals.How to use?First, please attach the antennas to the body. Please make sure that the jammer is charged for at least 5 hours.Once you turn the switch on, devices like cellphones (2G ~ 4G LTE) and WiFi&Bluetooth devices will not be able to transfer any data or make calls within the blocking range.The metal case of HDT 101t6 provides a very firm frame and the fan inside makes it possible for long term operation without overheat. Each antennas has its very own switch so you can turn them off separately according to your needs (like when you only want to block GSM phones and let CDMA phones work just fine).Rechargeable battery inside could provide a working time over 1.5 hours continuously. You could charge the jammer via the lighter in your car or use AC/DC in your home.This tiny device could help those who want to control or block phone use (voice call and internet use) around with very easy steps.
